Bowen theory engages a wide audience. Many in traditions of faith have found the theory central to how they think about themselves and their relationships with others, offering insights into theology and the practice of care and counseling, leadership, teaching, and research.

The two-day *Faith, Functioning, and Bowen Theory* conference will be of interest to many in faith communities –nevertheless, the conference is intended for anyone with a professional or personal interest in this area.

The conference’s featured speaker is John Haught, PhD. His area of specialization is systematic theology with a particular interest in issues pertaining to science, cosmology, evolution, ecology and religion.

A full roster of presenters with background in Bowen theory will address subjects related to the conference topic.

Related Event: Clinical Conference, April 12, 2024
Randall T. Frost, MDiv, Bowen Center Director
